

**AMENDMENT TO THE SPECIFICATION**

Please replace the paragraph beginning on pg. 18, line 19 with the following paragraph:

An example of the processing carried out at the step S150 is described by referring to an image shown in FIG. 7. This image is a view, which is visible when the driver in the vehicle sees what exists in front of the vehicle through the windshield 101. A pre-movement information conveyor 1101 is an information conveyor showing a time of the day at the upper right corner of a view in front of the vehicle. On the background of the pre-movement information conveyor 1101, a road sign [[1103]] 1100 is seen. Due to an effect of a striking color, in which the road sign 1100 normally displayed, the driver is hardly capable of recognizing the information conveyor 1101 in some cases.
